

# Trusha Gondaliya

Software Engineer — Laravel and React Developer

+91 74359 91877 | trushagondaliya30@gmail.com | LinkedIn

## Summary

---

Laravel and React developer with 3 years of experience delivering scalable REST APIs, billing systems, authentication flows, PDF reporting engines, and high-volume notification services. Strong expertise in Stripe billing, 2FA, FCM notifications, and performance tuning for large applications.

## Skills

---

**Languages:** PHP, JavaScript, SQL (MySQL)

**Frameworks:** Laravel, CodeIgniter, React.js, jQuery

**Frontend:** React, HTML, CSS, Bootstrap

**APIs & Services:** REST API design, Stripe Billing, Passport, FCM Notifications, QR Payments

**Security:** 2FA, Token-based authentication, Authorization

**Tools:** Git, GitHub, Jira, Postman

## Professional Experience

---

### Software Engineer

Jun 2023 – Oct 2025

Tatvasoft, India

- Engineered scalable full-stack modules using Laravel, CodeIgniter & React.
- Integrated Stripe subscriptions with automated renewals and customer billing portal.
- Enhanced authentication system by adding TOTP-based 2FA and secure email workflows.
- Crafted reusable React components and interactive dashboards with data-driven charts.
- Established an FCM-based push notification engine with analytics & delivery tracking.
- Designed automated PDF generation and scheduled reporting workflows.
- Accelerated API response time from **10s to 2.5s** through caching and optimized queries.
- Built a Google Pay compatible QR payment system with automated email confirmations.

## Major Projects

---

### BIMS — Building Information Management System

Laravel, CodeIgniter

- Integrated Stripe-based subscription & billing management.
- Automated PDF reporting using scheduled jobs.
- Configured FCM notifications with daily system insights.
- Boosted system performance (10s → 2.5s).

### Art-chain

Laravel

- Created a Google Pay compatible QR payment workflow.
- Executed offline payment automation with email triggers.

### CI Platform — Content Interaction System

Laravel, React

- Developed a React-based Story Management interface.
- Designed multi-step onboarding and identity verification flow.

## Education

---

**B.E. in Information Technology** — L.E. College, Morbi  
CGPA: 8.0

2019 – 2023

## Languages

---

English, Hindi, Gujarati
