Trusha Gondaliya

Software Engineer — Laravel & React Developer

☎ +91 74359 91877　　—　　✉ trushagondaliya30@gmail.com

Summary

Laravel & React Developer with 3 years of experience building production-grade APIs, authentication flows, subscription modules, reporting pipelines, and notification systems. Strong background in Stripe billing, 2FA, FCM delivery logic, PDF generation pipelines, and measurable system performance improvements.

Technical Skills

- **Languages:** PHP, JavaScript, MySQL
- **Frameworks:** Laravel, CodeIgniter, React.js, jQuery
- **Frontend:** React, Tailwind CSS, Bootstrap
- **API Work:** REST APIs, Stripe Billing, Passport, FCM Notifications, QR Payments
- **Security:** 2FA, Token-Based Auth
- **Tools:** Git, GitHub, Bitbucket, Jira, Postman, VS Code
- **Core Strengths:** System Architecture, Debugging, Testing

Professional Experience

Software Engineer　　　　　　　　　　　　　　　　　　**Jun 2023 – Oct 2025**
Tatvasoft, India

- Built and maintained **60+ REST APIs** across user, billing, reporting, and notification modules.
- Reduced API response time from **10s to 2.5s** using indexing, optimized queries, and caching.
- Lowered database load by **40%** through query restructuring and data-layer changes.
- Implemented TOTP-based 2FA, reducing login-related issues by **90%**.
- Developed Stripe-based subscription system used by **2,000+ active users**.
- Streamlined billing workflows, reducing manual intervention by **95%**.
- Built **25+ React components** reused across admin, user, and reporting modules.
- Designed real-time dashboards that reduced support issue resolution time by **80%**.
- Engineered a PDF reporting pipeline generating **200+ reports per day**.
- Built notification delivery logic sending **10,000+ FCM messages per day**.
- Increased notification delivery rate from **70% to 98%**.
- Improved user onboarding flow, reducing drop-offs by **35%**.
- Reduced customer-reported issues by **25%**.

Major Projects

BIMS — Building Information Management System
Laravel + CodeIgniter

- Developed backend features supporting **5,000+ property and tenant records**.
- Integrated Stripe-based billing that handles **INR 2,000,000+ annual recurring revenue**.
- Built weekly reporting workflow generating **200+ PDF reports**.
- Improved load times across modules by **4x**.

Artchain — QR Payment System
Laravel

- Integrated GPay-compatible QR payment flow for offline users.
- Reduced manual payment verification effort by **70%**.

CI Platform — Content Interaction System
CodeIgniter + React

- Improved Story Management speed by **50%**.
- Reduced onboarding drop-off by **35%**.

Education

B.E. in Information Technology	**2019 − 2023**
L.E. College, Morbi	CGPA: 8.0
Higher Secondary School Certificate	**2019**
SPKM Jetpur	80 PR
